VINFEN - CONNECTICUT

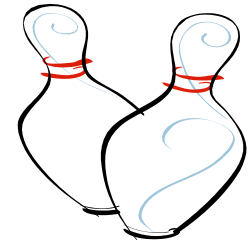

Vinfen-Connecticut (CT) is a private, non-profit human services organization that provides specialized residential and day services to youths and adults with psychiatric, development and behavioral disabilities. Our highly-trained staff collaborate with individuals and their support teams to define personal needs and goals so that each individual receives the supports he or she needs to achieve increased independence and integration in the community. The type of services offered depends on the needs of the individual served and ranges from programs with close and continual supervision to those with intermittent supports.

Our day services offers a variety of vocational and educational services including supported employment, community-based activities, a school-to-work transition program, and classes in the arts and daily living skills.

Each program focuses on developing skills, self-esteem and confidence, which are the foundations of a successful life in the larger community.
